data input.

T002D shifts one character to the left for every words selected at T002C and extracts words which have no more characters after making the character shift, as those words are no longer used for the following search process.

T002E sets new upper and lower limit to retrieve in the dictionary, after extracting words at T002D. Then the step goes to the above mentioned S003. (End of DETAILED DESCRIPTION OF THE DRAWINGS).

As a result of the above mentioned amendment of claims, the check in the amount of ~~\$1203~~ was sent separately by Int'l Express PO Mail, together with the original of this documents.

Please address all your future correspondence to the applicant undersigned for this patent application.

Sincerely,
